

JEWISH "FEAST OF WEEKS" WILL BE CELEBRATED

"Shavuoth" to Be Observed by Congregations of Rock Island Sunday.

Shavuoth, the "Feast of Weeks," will be observed by Orthodox Jewish congregations of Rock Island Sunday, and by all congregations of Jewish faith in synagogues of Rock Island. Orthodox congregations also observe the day following.

This festival is one of three agricultural feasts which were observed in the ancient biblical era. The Feast of Weeks was in biblical times a farmers' holiday, celebrated at the end of the first seven weeks of harvest. The ceremonial consisted in offerings of the field brought as a thanksgiving token for the new crop that was being harvested. (Deut. xxi:13).

This feast of the first fruits, like other agricultural festivals, was gradually transformed and invested with symbolic significance. In

course of time the Jewish people developed a historical consciousness and linked traditional events with these institutions and festivals that were transmitted from a remote ancestor. In the case of the Feast of Weeks, the giving of the decalog was associated with the feast of the first fruits, and so commemorated to this day.

By this combination a universal significance was attached to the festival in which the ripened fruits of the spirit, instead of the first fruits of the field, were offered in praise and thanksgiving as an offering from the people of the covenant. All synagogues read the decalog on this day and renew their pledge of loyalty to the covenant of Israel as their fathers did in days of yore.

Confirmation Ceremony.
During the last century the Feast of Weeks was enriched by introducing a confirmation ceremony in connection with its observance. The confirmation ceremony was sponsored by the leaders of reform of Judaism who made of it a feast of consecration of the Jewish youth, boys and girls, to the ancient covenant of their fathers.

The confirmation service does not exact from the confirmands any other than that of a belief in One God, and in His justice and truth as manifested in history. Confirmation day in some congregations synchronizes also with

graduation from the religious school in which the confirmands have covered an eight-year course comprising biblical and Jewish history, Jewish ethics and literature and an introduction to the Hebrew language, including a reading knowledge of the prayer book in its original language.

PRINTERS URGE USE OF LABEL

Allied Unions Launch Campaign to Advertise Stamp—Want All Work Done at Home.

A campaign was launched by the allied printing trades in a joint session at the Industrial hall in Rock Island Wednesday night in an effort to bring about the placing of the union label on all printed matter. The five affiliated unions are the book binders, stereotypers, pressmen, photo engravers and typographical union.

It was stated today that there are only one or two non-union printing establishments in the quad-cities, and that, of course, all printed matter going through the union shops are stamped with the label. However, it was said that one of the principal moves would be to make an effort to have all local es-

tablishments contract for their printing here in union shops and not send their work away to cities where in many cases the work falls into the hands of non-union establishments. It is claimed that printing work can be done as good and as cheap in the quad-cities as anywhere else, and that local establishments should patronize the local shops that are turning out work by paying a wage that insures for them the obtaining of the best class of workmen to be obtained.

Have Strong Organization.
The allied printing trades have a strong organization, numbering practically every workman in the printing lines in this community. Routine business was transacted at the session and standing reports heard after which various plans were concentrated for a systematic campaign to boost the union label.

In the Day's News

Ninety-five years old today is Rev. Antoinette L. B. Blackwell, the first woman to be ordained to the ministry in the United States, and a pioneer in many phases of human uplift. Dr. Blackwell was born on a farm not far from Rochester, N. Y., and at the age of 22 graduated from Oberlin college, then the only prominent institution in the United States offering the advantages of higher education to women. Three years later she completed a course in the Oberlin Theological Seminary and in 1853 was ordained to the ministry. In 1855 she married Dr. Samuel Blackwell of the family which has been a forceful one in the contest for woman's rights in America, its members including Dr. Elizabeth Blackwell, the first woman to take a medical degree, Lucy Stone Blackwell, the famous suffrage leader, and her daughter, Alice Stone Blackwell, who has followed the work of her mother.
